Certain extents are left fallow for want of timely rain, poor quality of soil.

*Steps to encourage Non-Communal Hostels*

Q.—298. Sri K. PRABHAKAR (Nelamangala-Scheduled Castes).—

Will the Government be pleased to state:—

the steps taken to encourage non-communal hostels in the State?

A.—Sri A. G. RAMACHANDRA RAO (Minister for Law and Education).—

Private hostels for University students which are confined only to students of a particular community are not eligible for grant-in-aid. If, however, 20 per cent of the seats in any such hostels are made available to students of other communities the hostel will be deemed eligible for such grants. The question of introducing similar rules in the Education Department is under the consideration of Government.

*Loans and Subsidy granted to persons.*

Q.—320. Sri M. CHIKKALINGIAH (Malavalli-Scheduled Castes).—

Will the Government be pleased to state:—

(a) the extent of loans given by Government both as repayable grants and as non-repayable subsidy to various persons in the State; (talukwar, name-

war and communitywar information may be given for past three years);

(b) to what extent the loans have been fruitful, including the number of wells sunk, the acreage of land brought under cultivation thereby, etc.

(c) how far the conditions have been fulfilled; what action has been taken by Government for the breach of these conditions, if any;

(d) the area of lands irrigated and the quantity of yield of foodgrains, etc., from the wells coming under the Scheme?

A.—Sri KADIDAL MANJAPPA (Minister for Revenue and Public Works).—

(a) and (b) The question is vague. The nature of the loan referred to by the mover is not clear; whether he means the Land Improvement loans sanctioned under the ordinary rules or the loans issued in addition to well subsidies over and above the limits allowed. It is not possible to collect the information. No information is available about the community of the grantees.

(c) Generally the conditions have been fulfilled. Where the parties have defaulted, steps for the recovery of the entire amount advanced have been taken.

(d) Please see (a).

*Donations for Hospitals, Temples,  
Choultries and Public Buildings.*

Q.—441 Sri S. R. NAGAPPA SETTY (Shimoga).—

Will the Government be pleased to state:—

(a) the amount spent out of the donations given by the public for hospitals, temples, choultries and public buildings;

(b) the amount remaining unspent at present;

(c) whether the Government are adding up to this amount the interest accruing thereto;

(d) in how many years will these works be completed?

(b) The amount remaining out of the donations is Rs. 5,48,952-7-4 at the end of September 1952.

(c) If the donations are held in Savings Bank accounts, interest is added on to the amount invested.

(e) Yes; Messrs. Killick Nickson & Co., were also addressed.

(f) Yes. Quotations were obtained for taking delivery of the material at the Dehu Road Depot and after securely packing the same, forward it by goods train to Bangalore.

The work of transportation was entrusted to Messrs. Sree Shankara and Company, Dodballapur.

(g) Yes, on 7th October 1952, as both the Military authorities and Messrs. Killick Nickson and Company pleaded inability in this behalf.

(h) Four.

- (1) Messrs. Walia & Company, Bombay.

- (3) Messrs. Kumar & Co., Bombay.
- (4) Messrs. Sree Shankara & Co. Dodballapur.

- (2) @ 7 annas per lb. inclusive of freight.
- (3) @ 7½ annas per lb. inclusive of freight.
- (4) @ rates lower than the lowest.

(j) The rates were higher than the rates incurred previously for the following reasons as stated by the Chief Electrical Engineer:—

1. The Military authorities who usually possess heavy equipment such as Cranes and winding equipment which can be used for re-reeling and handling heavy copper wire drums had

intimated their inability to undertake the work.—

(a) In view of the particular consignment being not only of a bigger section but also due to the drums being badly damaged and requiring extensive work of re-reeling similar to methods adopted during manufacture;

(b) not possessing the necessary equipment; and

(c) not being able to procure the waggons because of the restrictions imposed frequently by the Railways.

2. And other reputed clearing Firms such as Messrs. Killick Nickson & Co., Poona, Supply and Electrical Co., had intimated their inability to undertake the work of transportation.

3. The work being of a special nature consisting of—

- (a) manufacturing and supplying of new strong wooden reels about 100 in number;
- (b) either purchasing or procuring on hire necessary heavy equipment such as Cranes and winding equipment from Bombay;
- (c) engaging necessary labour in an out of way place and procuring required waggons, etc.

4. The Electrical Department had no alternative except to call for quotations and entrust the work to the lowest efficient tenderer in view of the fact that the Military authorities had given an ultimatum to clear the consignment from the Dehu Road Depot grounds urgently. and the Department had learnt that if the consignment was not cleared the materials would be sold to others by the Director General of Supply and Disposals.

5. If the department had not taken immediate steps to call for quotations and arrange for transportation, the result would have been that the copper consignment

(SRI K. HANUMANTHAIYA.)

at the Dehu Road Depot might have been sold off to others by the Director General of Supply and Disposals and for what could have been got at a total rate of about Re.0-12-0 per-lb. We would have paid a rate of at least Rs. 2-8-0 per lb. to obtain the same from the Market.

A.—Sri K. HANUMANTHAIYA (Chief Minister).—

(a) 25th October 1952.

(b) 12th March 1951.

(c) The delay was due to several reasons as mentioned below :—

(1) Booking on Railways to Bangalore City being restricted.

(2) In spite of repeated reminders from the Electrical Department, the Officer Commanding, Dehu Road Depot did not arrange for the transport of the consignment, but after being reminded through the Director General of Supply and Disposals, he intimated this Department to send a representative to export the materials and take delivery by wagon loads.

(3) Further delay was caused due to the time taken in addressing other Clearing Firms who replied in the negative and later resulted in calling for quotations.

(d) Four quotations were received :

	Received on.	Rate per lb
1. M/s Walia & Co.,	16.10-1952	Re. 0-5-0
